TOO MUCH LOOSE THINKING TODAY ASSERTS STANTON

New Spirit Toward Life And Work Urged By C. E. Convention Speaker.

ALUMNI BANQUET CLOSING FEATURE

County Workers May Meet Next October In Washingtonville.

Prof. B. F. Stanton, superintendent of the Alliance public schools, formerly of Salem, gave the closing address of the 32nd annual convention of the Columbiana County Christian Endeavor union Friday evening at the First Presbyterian church.

In opening his able discourse Mr. Stanton brought out the thought that "there is a great deal of loose talk in these days and also loose thinking in the industrial, political and religious world. It is extremely important that we build well," he said.

"We are living in a time when there is danger of losing our balance," according to Mr. Stanton. The speaker likened the hidden force today to that of the propeller on the ship, which is seldom seen, and pointed out that "we as individuals need to have our propeller sufficiently large."

Mr. Stanton compared the foreigners coming to our country today with the class who came in the early history of our country, the change, he said, making our problems different.

"We talk about our country being a democracy. It is the honest opinion of many thinkers of today that self-government is still on trial. The world looks to America for many things. No self-government can endure very long where certain conditions exist. Self-government demands above all intelligent and honest people. The problems we are facing demand more than a sixth grade education."

New Spirit Toward Work

"No matter where we work we have an obligation to our country and our God. I would have in my day and generation a development of a new spirit toward life and work. There are some very foolish notions about the possession of wealth. No wealth can exist except it be produced. Somebody must work and work hard. The spirit of integrity baptized with the spirit of Christ will make a new spirit in industry."

"Cultivate the right philosophy of life. This is one of the things we need to do in America. There are some things in life we need to get serious about. Today we need to cultivate more of the spirit of charity and tolerance. We believe in personal liberty for ourselves. I have no right to impose my pleasures if they are going to be a menace to others."

"We need to cultivate more and (Continued on fifth page.)"

100 PASSENGERS JARRED IN CRASH

Two Persons Seriously Injured As Cleveland Cars Crash In High Level Bridge Subway.

Cleveland, Sept. 1.—Two persons sustained serious injuries and nearly 100 passengers were thrown from their seats by the force of a collision today when a Detroit ave. street car crashed into a standing Fulton ave. car at the West 25th st. station in the subway on the high level bridge.

German Scholarship Good Only For Loaf Of Bread Or Carfare

Washington, Sept. 1.—Scholarships in German universities have been wiped out by the collapse of the mark, cable dispatches to the department of commerce revealed today. The usual scholarship of 7,500 marks, which before the war provided a full year's tuition, now is sufficient to cover the student's carfare on a single trip to the university.

Delegate To State Grange Is Chosen

Wellsville, Sept. 1.—William F. Foulke and Thomas Blankenship of East Liverpool were named as delegates from the county to the Forty-Homes at Eight Chevaux, to the state convention which will be held in Springfield, Sept. 8, at a meeting of the county body held last evening at the rooms of the Wellsville post, No. 79, American Legion.

GREEK-ITALIAN DISPUTE IS UP TO WORLD LEAGUE

Greece Protests Corfu Occupation After Italians Fire On City; Europe Trembles For Fear Of New Balkan War.

The Greek-Italian quarrel over the killing of Italian citizens on Greek soil rests with the league of nations today. Greece has claimed protection from the league, meanwhile protesting to the powers against the bombardment of Corfu and the occupation of the island.

Italy has officially proclaimed the occupation of Corfu but no mention of casualties resulting from the shelling. It is reported that the dead range from 12 to 20 with about three times that number wounded.

Athens claims that the Italian warships bombarded unarmed forts that were occupied by Armenian orphans under the protection of the Near East charitable organization. No Americans were killed or injured, so far as known.

The Italian delegate to the league of nations at Geneva was quoted, as saying that no danger of war existed and that Italy sought only moral reparations.

Danger of Balkan troubles is increasing as seizure of Corfu gives Italy complete control of the Adriatic, bottling up Jugo Slav and Albanian ports.

British warships have reached Greek waters to protect English interests in the event of war.

Paris, Sept. 1.—Rome has instructed the Italian delegations at Geneva to refuse any intervention by the league of nations in the Greek-Italian quarrel, said a Geneva dispatch to L'Information this afternoon.

Athens, Sept. 1.—The Italian minister today delivered a note affirming the occupation of Corfu was not a hostile move against Greece. Evacuation was promised as soon as Italy's demands were met.

STRIKE AT OHIO PEN IS AVERTED

Although Not Promised Increase In Pay, Guards Agree To Remain At Their Posts.

Columbus, Sept. 1.—Assurance that there will be no strike of guards at the penitentiary was expressed by the guards today, following a conference with Warden Thomas last night.

Although the warden could not promise the 45 men the increase in pay they wanted, he told them of possible riots and other disorders that might result from a walkout of guards.

When the conference closed every man promised to be at his post as usual today.

PICK GOLF TEAMS FOR MATCH PLAY

President Dunn's Team Will Play Vice President Deming's Team.

A novel feature for Labor day at the Salem Golf club course will be the president's and vice president's match play. Teams selected by President W. H. Dunn and Vice President G. R. Deming will be pitted against each other and play, starting at 9 a. m., will continue throughout the day.

155,000 MINERS IN HARD COAL FIELD OBEY STRIKE CALL

Strike Is Without Incident As Working Agreement Parley Fails.

PINCHOT MAKING ANOTHER EFFORT

Counter Proposition Made To Miners Being Considered Today.

Harrisburg, Pa., Sept. 1.—The strike in the hard coal fields was under way today. In the three districts of the field 155,000 miners obeyed the suspension order made effective by the failure of the miners and operators to agree on a new wage scale and working agreement.

Throughout the field the strike was without incident. A few cheers as the cages hoisted the last shifts from the mines at midnight announced the opening of the fight that promises to be of short duration.

Union leaders predicted a peaceful strike which they expect to win in two weeks or a month. They see strength in the condition of their treasuries.

There is \$2,000,000 in the treasury of the United Mine Workers of America. A monthly strike fund of \$300,000 is already assured. The district and local unions have funds aggregating \$3,000,000 which will be swelled by \$30,000 monthly from the wages of the maintenance men.

Pinchot Tries Again
Gov. Pinchot of Pennsylvania was to once more try to bring miner chiefs and operator representatives together today in a settlement of the wage and working contract dispute.

After five and a half hours conference yesterday afternoon the two factions were "farther apart than ever" according to reliable information coming from the conference room at the state house.

The miners' reply to the governor's plan of settlement was termed a "friendly rejection." There was far less "friendship" in the operators' answer.

A counter proposition made to the miners by the operators, upon pleas of the governor, was the matter to be considered at the conference today. What this counter plan was could not be learned. Gov. Pinchot, pledging both delegations to absolute secrecy.

Since the miners and operators "split widest" on the arbitration program submitted by the governor, it was believed here that this phase of the dispute was the one now under consideration.

There was but little change in the situation today over the case as it stood at Atlantic City over a week ago and at New York Aug. 15, when miner and operator met upon call of the United States coal commission.

LEAGUE DELAYS HEARING DISPUTE

Appeal From Greece Was Virtual Demand For Intervention By League Of Nations.

Paris, Sept. 1.—The council of the League of Nations has adjourned consideration of Greece's demands that the league intervene in the Greco-Italian dispute according to dispatches from Geneva.

The adjournment was made at the request of Italy, the dispatch said. It was understood that the matter would be taken up again Tuesday.

Greece's appeal to the league cited articles 12 and 15 of the league covenant, and charged that Italy's seizure of Corfu constituted an act of hostilities endangering peace.

The appeal virtually demanded intervention by the league.

Former Salem Man Speaks At C. E. Convention.

B. F. STANTON
Superintendent of Alliance schools and former Salem High school principal, who gave inspiring address at closing session of the county C. E. convention here Friday night.

STATE SECRETARY TO BE SPEAKER AT TOWNSHIP PICNIC

Third Harvest Home Picnic Will Be Held Saturday At Westville Lake.

The third annual harvest home picnic of Butler, Knox, West, Smith, Goslin, Lexington and Washington townships will be held next Saturday at Westville lake, giving promise of being one of the biggest and best picnics ever staged in Columbiana county and will hold interest for residents of all counties surrounding.

Some one has been arranged for the day and night. There will be orchestra music, vocal selections by J. William Wilson of Salem, addresses by Judge L. T. Farr, of the court of appeals and Secretary of State Thad H. Brown, whose subject will be "Our State Government."

The speaking will begin promptly at 2 p. m. and is to be followed by a daylight exhibition of fireworks.

When bombs used in the exhibit, are exploded in the air, large parachutes bearing animals will fall to the ground. The boy or girl bringing in the largest piece of the parachutes will be given free tickets for refreshments.

The prettiest baby on the ground will win for his parents a sack of flour and the second choice will win three pounds of coffee. For the fattest baby under one year a cash prize of three dollars will be given.

Two hundred dollars in prizes will be offered for farm produce exhibits. Pamphlets giving details of the exhibits will be circulated soon.

A program of sports, a ball game and contests will be features. Among them will be races for girls and boys 12 to 16, a hundred yard dash for men, a fat men's race, pie eating, horseshoe pitching, ball throwing for ladies and a women's ball throwing contest.

J. H. Cameron, A. D. Whinnery, J. H. Merrick, L. E. Sanor, R. White, J. Randolph and V. E. Stanley are members of the executive committee. Bert Cobbs is president, E. E. Walker, secretary, Ernest Wuthrie, treasurer and John Grove, vice president.

Chautauqua Reiner Held At Columbiana

Columbiana, Sept. 1.—The Seventh more-Kadcliffe chautauqua is giving the people of Columbiana and community a splendid program. Helen Louise Uter squared away the event with a boosters' parade Tuesday evening which helped to lift the sale of tickets. Formerly the chautauqua venture has been a losing proposition for those who backed the movement as guarantors.

The chautauqua will continue until Sept. 5 with afternoon and evening programs.

BREAKS BANK WINDOW; TOO DRUNK TO ROB

In the clutches of demon white mule which caused him to see visions of a famous bank robber, Pete Welch attempted to rob the huge vault of the First National bank at 2 a. m. Saturday after smashing a window on the Main st. side.

Nightwatchman Earl Ritchie, who was near the bank heard the clatter of falling glass and went to investigate, thinking that bandits were trying to get in the jewelry store nearby.

LOSS OF LIFE HEAVY AS FIRE DESTROYS CITY

San Francisco, Sept. 1.—Meagre radio reports received here state that Yokohama, Japan, is ablaze to day following a severe earthquake which occurred at noon today. Numerous casualties were reported.

Meagre advices to the Radio Corporation here today indicated that the city of Yokohama, Japan, was almost totally destroyed by fire, which followed one of the most severe earthquakes in the history of Japan.

Many lives were lost in the quake and fire. Advices stated the casualties were numerous. No estimate of life could be obtained.

First reports of the earthquake and fire were received here from the Iwaki Radio Corporation station off Tamioka. It is an isolated spot in the Japanese empire and an eight hour train ride from Tokyo, the radio advices indicated that the entire empire was shaken by the quake. Casualties were only reported from the port of Yokohama.

Washington, Sept. 1.—The city of Yokohama has been wrecked by an earthquake said an unofficial radio dispatch to the Japanese embassy today from Tokyo. No details were given but naval advices were expected hourly.

Pacific cables are reported to have been broken by the earthquake. Tremors lasting an hour and a half were reported on the Izu peninsula.

Great damage was done to the railroad connecting the peninsula with Yokohama and Tokyo.

The area of the quake, from available reports, covered the section about the bay of Tokyo. Yokohama is across the bay from Tokyo to the southwest. A short distance to the south is Yokosuka, a city of approximately 900,000 persons.

The Izu peninsula is southwest of Tokyo across Katsu bay, which is divided from Tokyo by the small peninsula on which Yokosuka is situated. The trip to the Izu peninsula which is reported shaken by the heavy quake, is about 125 miles from Tokyo.

Walter Evans Leads Police To Hiding Place Where Part Of Loot Is Found Saturday

After confessing to Officer Reese of Mansfield, here to take him back to the reformatory that he had secreted loot stolen from various places in Salem and other towns, Walter Evans, 18-year-old burglar arrested Thursday night, as he was attempting to rob the home of Prof. J. S. Alan, was taken to the places he named Saturday noon by Officer William Bryn of the Salem police officer and Officer Reese who found a suit case and a traveling bag full of clothing and other merchandise.

Evans has for two days refused to talk to the Salem officers who attempted to question him. Chief of Police T. W. Thompson gave him a third degree but no information as to the whereabouts of the stolen loot could be obtained.

Friday Chief Thompson telephoned to Mansfield and Officer Reese, who was supposed to have taken the youthful criminal back to the reformatory before, when Evans was arrested two weeks ago, arrived to again take charge of him.

Reese went into Evans' cell and after some time Evans admitted that he had hidden a suit case full of clothing in the old barn on what was the Lease farm on the Damascus rd. and a traveling bag in a clump of bushes at the east end of High st.

Evans was handcuffed to Reese and taken to the two places where the things were found as Evans had said. It was impossible to identify the goods as Chief Thompson is in Bedford where he went Saturday morning to get the baggage that was checked by Evans with the check found on his person when he was arrested.

Officer Reese will take Evans back to Mansfield Saturday. The officer said that the former time he took Evans he received word that his aged father had died and he turned Evans over to a Canton officer from whom Evans subsequently escaped.

Persons from whom goods have been stolen are asked not to come to identify their property until Sunday when Chief Thompson will be back from Bedford with the rest of the stolen goods and will sort out the merchandise from the list that he has.

32 ARRESTS ARE MADE IN AUGUST

Intoxication Again Leads Charges With 20 Arrests, According To Report Of Police Chief.

City police made 32 arrests during August, according to the monthly report of Chief of Police T. W. Thompson. Intoxication leads the charges with 20.

Other charges on which arrests were made were disorderly conduct, passing worthless check one, suspicion one, burglary one, assault two, and reckless driving one.

The decrease in arrests for reckless driving is noticeable in the report, for only one arrest being made for that offense while in months previous there were many arrests for that offense.

WATKINS, OUSTED, ASKS REHEARING

Attorney Files Application With Governor; Says Civil Service Test Will Be Made.

Youngstown, Sept. 1.—Former Judge W. P. Barnum, representing James Watkins, said today he had filed application with Gov. A. V. Donahey for rehearing in the case in which the governor removed Watkins as chief of police of Youngstown.

Atty. Barnum declared the governor acted without authority and the law specifically provides Watkins should have been tried under the civil service act instead of the Miller law, which Barnum says provides a method for removal of officers who are not under civil service.

George Lafferty, Lisbon, was honored by the Columbiana County Christian Endeavor union at its annual convention Friday at the Presbyterian church when he was chosen president for the ensuing year. He succeeds George Miser of Salem, who presided over the sessions of the convention.

Other officers are:

First vice president, A. C. Bailey, East Liverpool; second vice president Harold Hutchison; secretary, Mrs. A. C. Bailey, East Liverpool; treasurer, Russell Shurtz, East Liverpool; state board trustee, Rev. P. M. Kendall, Lisbon.

Here are the superintendents: Quiet hour and evangelism, Mrs. Earl Adams, Wellsville; stewardship, Carl Dean, East Liverpool; junior, Bernice Barlow, Lisbon; intermediate, Mr. Harsh, Paris; extension and citizenship, Alice Wilderson, Columbiana; purity, Miss Lessie Stewart, East Liverpool; missionary, Mrs. Clyde Kellogg, Columbiana; publicity, James Foley, East Palestine; assistant publicity, Cecil Rauch, Lisbon; music, Anna Rapp, Columbiana.

These officers were installed by Rev. Frank Frost, of Columbus, at the evening session.

Corfu Greek Island In Mediterranean

Corfu the Greek island seized by Italy in retaliation for the killing of Italian citizens on the Albanian frontier, lies in the Mediterranean off the northwestern coast of Greece. It is a member of the Ionian group.

It has an area of 277 square miles and a population of about 91,000. Relief stations for Armenian orphans were established there by the Near East relief administration. Permanent occupation of Corfu would give Italy complete control of the Adriatic.

The Dollar Is Not All

A T Evanston, Ill., a university town,

wages of more than \$100 a week

paid to plasterers are diverting stu-

dents from the Gospel ministry. A

civil engineer with many degrees re-

fused a professorship because he

could make so much more money plas-

tering.

Other information recently discov-

ered that police officers in New York

were resigning to take up the work

of bricklaying.

These incidents may be true. One

hundred dollars a week must appear

to be a considerable reward to men

who may not hope for such rewards

even after years of application, study

and hard work. But the dollar is not

all. The plasterer, the bricklayer, the

plumber—all of them—are necessary

in our scheme of living, but the world

soon would go to wreck if deprived

of its intellectuals. Note Russia.

Money is desirable; each man and

woman should have enough for his or

her labor to insure to them a reason-

able degree of comfort and happiness.

But the dollar is not all. The worker,

skilled and unskilled, must remain a

worker; that is, the vast majority of

those who toil with their hands will

go to the end of things as such serv-

itors. But the men who absorb the

lessons of the past, who walk familiar

with the poets and sages and philoso-

phers of the world live not only one,

but many times. Theirs is the con-

structive mission to make all living

truer, nobler, better. By their energy

and application and spiritual ambition

they may, and do, earn something

more valuable than money—they may

earn the knowledge of the value of

human service in its highest interpre-

tation. But the temptations to follow

after the flesh pots are great, and

many of us yield to their appeal, as

did those blind ones of the olden time,

even though we know that in the last

analysis, as a humanitarian thinker

recently phrased it, "there is little in

life, materially, excepting three

meals a day, a comfortable place to

sleep and sufficient wearing apparel."

But such a life must be unsatisfac-

tory. The soul yearns for and aspires

to higher and better things. Hence

the Gospel stands and the engineer

who holds fast to his tasks—even

though the rewards of their labors

may seem inadequate when compared

with those of men who toil with their

hands—successfully will negotiate the

Matterhorns of life, winning the ap-

proval of their minds, souls and con-

sciences and the admiration of their

fellows. The dollar isn't everything.

CAN YOU SPRAIN YOUR SPINE.

The claims agent or adjuster of

damages of a railroad will tell you

that he does not know much about

sprained spines, but that he knows

how to cure them.

And what is his cure?

He states that by awarding damages

to the injured person the cure is in-

stantaneous and complete.

Now what about this?

Well, he may be right in some

cases as malingerers are found every-

where, but as a matter of fact you can

sprain your spine.

Why? Simply because the spine is

made up of a number of joints exact-

ly like other joints.

As you know the spinal bones are

piled one on top of the other with a

cushion between each one and the one

above it. This softens the jar in

walking, running, or falling on the

foot from a height.

Then each separate bone is attach-

ed to the next one by ligaments and

other ligaments run up the front and

back of the whole column.

Sometimes this stretching actually

becomes a tearing as in a true sprain,

and there is a partial paralysis for a

time.

After this clears up the muscles

still remain sore on movement just as

in any other sprain.

And the treatment?

Just the same as any sprain.

You remember in the case of the

sprained ankle you gave it absolute

rest. The same applies to the spine,

and so in severe cases the spine is

put in a plaster of paris corset to pre-

vent movement.

So if you have received a severe

shaking up in any manner and the

back pains you, simply rest it until

the pain disappears or you may al-

ways have a weak back.

Tomorrow, the subject of the discussion is, "Paul, the Apostle." H. L. Miller is leader. The grade school is conducted on a vacation plan. Every one is personally cared for. Come any Sunday to visit us. Enrollments received every week. Fall and winter courses open September 16.

11, communion: "This do in remembrance of me." Sermon, "In Action, How Like a God!"; 7:30, the evening services open for the season. The evening service will be one of song and spiritual devotion. As the day closes and the shadows fall, let us remember our creator in an hour of silent meditation. The thought for the hour will be: "Self-Discipline—For Their Sakes I Sanctify Myself."

First Friends. Rev. Charles Haworth, pastor—Bible school, 9:45. E. I. Goldy, Supt.

Ref. Charles Haworth, the new pastor, will have charge of the services Sunday, with the introductory service in the morning. Rev. Ralph Coppock, Damascus, superintendent of Damascus Quarterly meeting, will be at 11 o'clock service for worship and have some part in it. The evening service will be at 7:30.

The subject for the evening service is "The Message For This Hour," Mr. Haworth would be glad to meet all the members and friends of the church at these services.

WORK ON MASSIVE POWER STATION TO BEGIN NEXT WEEK

Plant On Ohio River Will Furnish Power For Salem Company.

Actual construction work on the big electric power generating station on the Ohio river near Tokontie, which will be a source of additional power for the Salem Light and Power company, the Pennsylvania Ohio Power and Light company and other companies in eastern Ohio and western Pennsylvania, will be started within in the coming week. Preliminary work has been in progress for several months and now the building of the plant begins.

Orders have been placed for two 37,500 K. V. A. turbo-generators and auxiliary electrical equipment and arrangements have been made with the General Contracting corporation of Pittsburg, which has had wide experience in dam and under water construction in the Ohio river, to build the massive foundations on which the power plant will rest. All the work will be under the supervision of Stevens and Wood, Inc., under the direction of James D. Andrew, vice president and district manager.

A start will be made immediately on the excavation of the station site by means of floating dredges. The excavated material will be used in the construction of coffer dams to protect the work against any fluctuations in the level of the river. It is hoped that sufficient progress will be made this fall to permit the placing of the foundations and circulating water tunnels before the weather becomes sufficiently severe to interfere with this kind of work.

The new power station which will be one of the finest and most modern in the country with an eventual capacity of 300,000 K. V. A., will be constructed as near the low water level as is permissible under the United States government regulations. The intake tunnels for circulating water will be carried down to such a depth that the lowest possible stage of the river cannot deprive the station of a thoroughly adequate water supply, while the water tight foundation walls will rise above the highest known water level of the river, registered in 1884.

Some idea of the massiveness of the foundations which will be placed and of the station throughout may be gained from the fact that the work now starting will involve the driving of some 3,000 piles and the placing of 6,000 to 10,000 cubic yards, approximately 10,000 to 17,000 tons, of concrete as well as the excavation of some thousands of cubic yards of earth and rock.

Labor Day

LABOR DAY is one of the newest of our so-called national holidays, but it stands out prominently in meaning, in manhood and in mission.

It is the day of recognition of the bone and sinew of the nation, of the men of the force and the loom, of the mine and the mill, the quarry and the farm—the mighty host whose strength and skill have laid and maintained the foundation of the republic.

May Labor's Day bring its hosts a full measure of rest and recreation.

Admiral Chester Gives Up Turkish Concession.

Admiral C. M. Chester

Rear Admiral Colby M. Chester, U. S. N. (retired), and his associates must accept \$300,000 cash and 10 per cent of the future profits for their rights to the so-called Chester oil and railway concessions in Turkey. They must also withdraw from all connection with the Ottoman-American Development Co., which holds the title to the concessions, according to the decision of a board which arbitrated the question. The grant will go to a Canadian syndicate headed by Charles Austin Barnard, but it is stipulated that only American capital may be invested in the concession.

STOCKS

MARKET IS REACTIONARY
New York, Sept. 1.—The stock market was reactionary at the opening today, the decline in many issues extending to more than a point.
Gulf States Steel was down 1 1/2 to 86 1/2. Steel common lost 3/4 at 92 1/2. Baldwin fell 3/4 to 124.
Devlin Chemical broke six points to 46 1/2 on a few sales. Pan American Petroleum fell nearly one point to 59 1/2. Stewart Warner was 3/4 lower at 90 1/2.
Ralls were active, Canadian Pacific yielding to 142 1/2; Northern Pacific 1/4 to 60 1/2 and New York Central 1/4 to 100 1/2.

Continued from First page
Slavia and Bulgaria will be drawn into it.
In Albania Bulgarian irregulars are already active.
The general situation is causing alarm. The outcome of war between Italy and Greece is comparatively easy to foresee since Italian warships outnumber the Greeks, three to one.
On the other hand Greece is said to have the strongest army in the Balkans. It was reorganized after the revolution last year.
Premier Mussolini is said to be ready to point to French occupation of the Ruhr as a precedent for Italian occupation of Greek territory. He will receive little sympathy from France, however, according to advices from Paris.
The French are said to be accusing the Italian prime minister of violating Article 12 of the League of Nations covenant. Both France and Spain are displeased over the landing of Italian troops at Tangier and the sending of an Italian warship to that Moroccan port.

The spirit of goodwill. As we move on toward the better things of life we are going to move in the spirit of love and goodwill.
At the conference which preceded the address about \$180 was pledged for county work.

The piano and pipe organ duets by L. D. Rupert and Lee Holloway were very much appreciated.

Alumni Banquet
The annual alumni banquet was a feature of the convention. In the absence of Miss Mazie Moore of Wellsville, alumni president, James Foley of East Palestine, vice president, presided. Talks were given by Rev. Frank L. Freet of Columbus, general secretary of Christian Endeavor in Ohio; Robert Dixon, Canton; George M. Schurte, retiring county president; Russell Shurtle and Horace Stoddard, East Liverpool, and William Reed, East Liverpool.
Rev. Frank Freet gave an inspirational address at the afternoon session when he used as his subject, "Friends of Christ." This is the slogan of C. E. for the next two years. It was given by Dr. Francis Clark, founder of the movement, at the national convention at De Moines, Ia. He founded his talk on this text: "Ye are my friends if ye do whatsoever I command you."

"Our service for Jesus Christ is personal evangelism," the speaker declared. He spoke of three fields to labor in, the church, the society and the world. Friends of Christ in the spirit of loyalty, exaltation of Christ and loyalty to the church were emphasized by Rev. Mr. Freet.

Tells Of Work in India
Miss Jessie Thomas of Salem, returned missionary from India, in a most interesting way told of some of the conditions in India and problems that the missionary has to meet.
"No people in the world are more religious than the Indian people," she said. "Today, as in the days when Jesus Christ was on earth, it is the common people who are receiving the gospel."

The attendance at the convention this year was larger than last year. While no definite place has been secured for holding the convention next year, it may go to Washingtonville.

MAXWELL PRICE CUT ANNOUNCED

The announcement during the past week of a reduction in the prices of the Maxwell, running as high as \$90 on the standard touring car, has aroused a great deal of interest both in industry and among the public.

The new price on the standard touring car is particularly striking and according to Maxwell interests, establishes an entirely new standard of values in this field.

In a statement issued at the Maxwell factory in Detroit, Arthur E. Barker, vice president in charge of distribution, says:

"Only the fact that the demand of the motoring public for the good Maxwell, in the short space of two years, has surpassed all expectations, makes these new lower prices possible."

Resigns Pastorate To Become National Lecturer For Klan

Minerva, Sept. 1.—Rev. G. L. Messenger, for the past three years pastor of the Christian church here, has announced his resignation and with it his appointment as lecturer on the National Bureau of the Ku Klux Klan. Rev. Messenger leaves Minerva Sept. 16, and will assume his new

duties immediately following his leaving Minerva.

In discussing his resignation and appointment by the Klan today, Rev. Messenger declared that he has been interested in Ku Klux Klan work for some time and was glad for an opportunity to serve the Invisible Empire.

Rev. Messenger's new duties, as he described them today, will necessitate a tour of the United States. He will deliver lectures in interest of the Klan in various cities, speaking several times a week.

Rev. Messenger, a graduate of Valparaiso university, has served as a pastor of Christian churches in Pennsylvania, New York, and Ohio the past decade. He is a young man, less than 35 years of age.

TIRESOME PARADE OUT OF FAVOR FOR LABOR DAY FETES

Labor Will Celebrate Its
41st Annual Independ-
ence Day Monday.

New York, Sept. 1. — Marked by
auspicious parades in a few of the
larger cities, but less extravagantly
throughout the nation in general,
labor Monday will celebrate its 41st
annual Labor day, the "Independence
day" of industry.

Labor is gradually doing away with
lavish demonstrations that cost a for-
tune and tire the participants more
than a day at work. Its attitude in
this respect is set forth by William F.
Kehoe, secretary of the Central
Trades and Labor Council of Great-
er New York and vicinity.

"The signs of the times indicate
that the workers don't believe in
marching as a means of spending the
"best day of labor," Kehoe said.
"The present day idea is to have an
observance in which the workers and
their families may participate. For
this reason we have done away with
parading on Labor day in New York
city. Instead, as this year, we are
celebrating with an outing, really an
old-fashioned picnic with addresses by
prominent labor officials and others.
"This form of celebration is gaining
momentum throughout the country.
Today, we have been informed, only
such large cities as San Francisco,
Chicago, Boston, Washington, D. C.,
and one or two others will observe
the day with parades. In a few years,
I feel certain, they too will discard
this expensive mode of celebration
and innovate the kind that costs less
and means more."

New York's Labor day celebration
will be held on the Fort Hamilton res-
ervation. Samuel Gompers, president
of the American Federation of Labor,
is the principal speaker, and among
the others is Theodore Roosevelt, as-
sistant secretary of the navy.

Origin in 1882
Labor day had its origin in 1882,
when it was first suggested by P. J.
McGuire, at the time secretary of the
United Brotherhood of Carpenters. On
May 8 of that year he made the propo-
sition, urging the propriety of set-
ting aside one day in the year to be
designated as "Labor day" and to be
established as a general holiday in
the laboring classes.

There were other worthy holidays
representative of the religious, civil
and military spirit, he argued, but
none representative of the industrial
spirit, the great vital force of every
nation. Therefore he suggested the
first Monday in September of every
year for such a holiday, coming as it
would at the most pleasant season of
the year, nearly midway between the
Fourth of July and Thanksgiving, to
fill a wide gap in the chronology of
legal holidays. He advanced many
cogent reasons and at once his idea
was enthusiastically embraced.

Preparations were made and on
Monday, Sept. 5, 1882, the first Labor
day was celebrated in New York city.
Eventually the idea spread from city
to city, town to town, until city coun-
cils and state legislatures took it up
and made the day a legal holiday. Fi-
nally, on June 28, 1894, it became a
national holiday by act of congress.

At the present time nearly all of
the states in the Union have statutes
making the first Monday in Septem-
ber a legal holiday, thus observing
Labor day.

GREB DETHRONES WILSON AFTER 15 GRUELLING ROUNDS

Pittsburgher Gets Decision
By Pummeling Champ
Relentlessly.

New York, Sept. 1.—Harry Greb,
Pittsburgh "windmill," who has been
knocking at the championship portals
with varied success for a number of
years, Friday night dethroned Johnny
Wilson of Boston, as world's welter-
weight title holder at the Polo
Grounds.

Greb received the judges' verdict
after 15 rounds that for the most part
proved considerably below champion-
ship standard.

Taking the aggressive from the
start, Greb pummelled the champion
relentlessly about the head and body.
He weakened Wilson in the fifth with
a series of right jolts to the jaw and
had the champion in distress in both
the eighth and ninth rounds with a
slashing attack to the head.

But Wilson, blocked in most of his
offensive attempts and finding the
Pittsburgher a shifty and elusive tar-
get, fought back gamely. He stood
up under a heavy bombardment in the
last four rounds with his left eye vir-
tually closed and with blood dripping
from cuts about his mouth.

Wilson's attack was directed chiefly
to Greb's body and at times he seemed
to hurt the challenger with short left
hooks to the ribs and stomach, but
Greb invariably checked his opponent
by blocking and maneuvering.

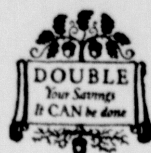

In the twelfth and thirteenth rounds
Wilson showed a few flashes of cham-
pionship form but they were only mo-
mentarily. Puzzled by his opponent's
method he invariably stayed on the
defensive.

Greb's rough tactics and Wilson's

apparent inability to display any ef-
fective sort of attack marred many
of the rounds. The Pittsburgher was
warned repeatedly for holding in the
clinches while he swung his right to
Wilson's head and body and on one or
two occasions he was roundly booed
by the crowd for his unfairness. Wil-
son, however, was also accused of
rough work.

Neither fighter scored the semblance
of a knockdown during the entire fight.
But while Greb had the titleholder
hanging on at several stages under a
terrific bombardment, the challenger
was never in danger.

Canton—Mike Slater, 12, was nab-
bed by prohibition officers in an alley
near his home and discovered to have
been carrying concealed under his
coat a half gallon of corn whisky. The
boy's mother was also arrested fol-
lowing the boy's testimony that his
mother intended selling the liquor.

STATE GIVES AID TO COUNTY ROADS

County Fares Well Under
Former Ohio Highway
Administration.

Lisbon, Sept. —Columbiana county "has fared rather well" under the Republican administration of the highway department in Ohio, according to records gathered by Walter Rogers, Republican executive secretary.

Contracts awarded from Jan. 1, 1921, to Jan. 1, 1923, totaled \$326,250, according to his figures. More than \$100,000 was spent in maintenance in 1921 and \$46,755.40 was expended for the same purpose in 1922. Maintenance and repairs to July 1, 1923, amount to \$27,402.19, he says.

"In addition to the above," Rogers continues, "before the retirement of the Republican administration, a total of \$76,440 in state and federal aid was set aside for use in Columbiana county; fortunately your county was not one to have its funds rescinded by the new director of highways."

Trained Animals In Barnes Circus Attract Throngs

Throngs saw the first big circus that has been shown in Salem in several years, Friday when the Al G. Barnes wild animal aggregation appeared before two packed houses on the Tolerton show grounds on the Depot rd.

Not the least down hearted because there was no parade, thousands made their way to the circus grounds, visited the freaks of nature, etc., in the two sideshows, munched peanuts and popcorn, the two confections that are thought of simultaneously with the word circus, gazed at the hundreds of wild animals that are the famed collections of Al Barnes—real zebras, lions, elephants of which there were a dozen including Tusko, a 10-ton being, llamas from South America, wild bears, a giant hippopotamus that was hitched up to wagon a la horse, scores of the lesser wild animals and several hundred of the tame species, horses, dogs, cats, chickens, rabbits—all performers who took part in the spectacle "Alice in Wonderland," the theme of the show.

It was the first large animal circus that has ever shown in Salem. Because of that distinction the show was greeted with an immense crowd of onlookers when it unloaded on Newgarden st. four hours late. The afternoon performance was late and the parade had to be dispensed with on account of the late arrival. Saturday the show plays in Ashland.
